9am - 6:30pm

Holiday Inn Conference Center  
7736 Adrienne Dr • Breinigsville, PA 18031

A short time ago, we could have never imagined how wonderful life could really be. Many people wake up every day thinking that they do not have choices in their life and never imagine that there could be a better way. The choices that we have made over the last 18 years have allowed us to live a life that most people would only dream of. This business is really about creating a lifestyle. We wake up every day and design our life and our future. We have five children ranging in age from 17 to 26. Our business has allowed us the ability to travel the world and to build globally. We live on a lake and spend the summers taking long rides on our pontoon boat, enjoying a good glass

of wine and our time together. The Market America business opportunity allowed Lisa to retire from a 15-year nursing career after just one year of building her Market America business part time. Jim was able to walk away from a 12-year career and a high-paying corporate position after six months of building his business part time. This is a business that teaches you to work smart instead of just working hard. Now, we would never do anything that did not provide us with leverage and ongoing income. In fact, we find it hard to understand why anyone trades their time for money instead of building their Independent UnFranchise® Business. This business has given us so much. One of the things that we really love is to give back - now helping others achieve their dreams. We wake up every day thankful for what we have and excited about our future! Time is valuable - don't waste another minute. We look forward to your success!
